

MINH CHAU

I am a persistent and accountable graduate with more than two years experience using statistical analysis and reporting software. I am seeking employment that will enhance my profession as a Data Scientist in producing reliable statistics, and thus contribute to New Zealand society.

06/2019

Master of Applied Statistics

Victoria University of Wellington

Wellington, NZ

Bachelor of Science in Statistics

Otago University

Dunedin, NZ

WORK EXPERIENCE

08/2020
|
current

Research Assistant

Massey University Wellington

Wellington, NZ

- Communicate with the client clearly to fulfil requirements
- Prepare and transform survey data for analysis purposes
- Create informative graphs and tables to present key findings
- Apply statistical methods to data to produce insightful interpretations that assist the client in making decisions

04/2020
|
current

Sessional Assistant

Victoria University of Wellington

Wellington, NZ

- Mark 100-level statistics assignments and projects
- Attend to training and meetings
- Enter assignment grades correctly and in accordance with the marking system's guidelines

03/2020
|
06/2020

Intern/Data Analyst

Harmonic Analytics

Wellington, NZ

- Extract, wrangle and analyse time series data to draw appropriate interpretations and conclusions
- Construct time series models to make monthly and yearly predictions
- Produce an interactive Shiny dashboard to present predictive techniques and significant statistical results
- Co-operate with supervisor and manager to deliver according to the client's requirements and ensure data quality is optimised

PACKAGES

Statistical Programming:

- ☐ Experience with R
- ☐ Exposure to SAS, SPSS, SQL

Web development: HTML, CSS

Machine learning: Python (Entry level)

Data visualisation: PowerBI

Reporting: R Markdown, Shiny, LaTeX

Workflow: Github, Gitlab

MS Office: Excel, Power Point, Word

STRENGTHS

Experience with data wrangling and statistical analysing

Build and maintain professional work relationships

Fluent ability to create evidence-based reports

Good understanding of survey design and analysis

Ability to collaborate and work independently

PROJECTS

The following projects which can be found in details on my portfolio, <https://minhchauvannguyen.github.io/>, have helped me to develop and strengthen my analytical, programming and reporting outcomes abilities.

08/2019

Statistical Consulting Assignment

 [Link](#)

Objective : Investigate the relationship between the amount of fish intake and mercury levels found in fisherman hair.

Key skills learned

- Apply explanatory analysis and descriptive statistics to identify trends and patterns in the given data
- Report statistical methodologies and data processes using technical documenting tools

02/2020

Cluster Analysis Research Project

 [Link](#)

Objective : Outline the research methods necessary for the analysis of ordinal and binary linguistics data.

Key skill learned

- Apply research statistical methods to ordinal data and produce research-oriented report based on theoretical constructs and literature review

06/2020

Time Series Analysis Shiny Dashboard

 [Link](#)

Objective : Demonstrate time series analysis and predictive modelling methods of data recorded at monthly interval.

Key skills learned

- Design a Shiny dashboard consisting of interactive graphs and tables to present the results. Emphasize important details of the dashboard to ensure it is user-friendly and appeals to a non-technical audience

09/2020

ICMR in patients under 18 years old report

 [Link](#)

Objective : Investigate the relationship between variables in the context of medical statistics.

Key skills learned

- Generate a report to summarise the applications of different statistical techniques to health data and highlight key findings
- Interpret the outcomes to answer to the research question and make comments towards future considerations

09/2020

Multi-class Random Forest classifier technical report

 [Link](#)

Objectivet - Understand the analysis of multi-class data using a machine learning algorithm.

Relevant key skills

- Understand the role and concept of machine learning algorithms in relating to data analytics
- Develop a Random Forest classification model for real data in a multi-class setting

LANGUAGES

- ☐ Vietnamese (fluent)
- ☐ English (fluent)
